

Pension the Pennies Cookie Policy

Our website and app use cookies to distinguish you from other users. This helps us to provide you with a good experience when you browse our website or app and also allows us to improve our site and app.

What is a cookie?

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

Additionally, mobile devices may use other tracking files that are similar to cookies, for example, iOS devices use Apple's 'identifier for advertisers' (IDFA) and Android devices use Google's Android ID. In the context of tracking within an app, the concept of a cookie will include an IDFA and an Android ID for the purpose of this cookie policy.

We use the following cookies:

- **Strictly necessary cookies.** These are cookies that are required for the operation of our website and app. They include, for example, cookies that enable you to log into secure areas of our website and app.
- **Analytical or performance cookies.** These allow us to recognise and count the number of visitors to our website and users of our app and to see how users move around both the app and our website. This helps us to improve the way our website and app work, for example, by ensuring that users are finding what they are looking for easily.
- **Functionality cookies.** These are used to recognise you when you return to a website or app. This enables us to personalise our content for you and remember your preferences (for example, your choice of language or region).
- **Targeting cookies.** These cookies record your visit to our website or app, the pages you have visited and the links you have followed. We will use this information to make our website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

You can find more information about the individual cookies we use and the purposes for which we use them in the table below:

Third party cookies

Please note that the following third parties may also use cookies, over which we have no control. These named third parties may include, for example, advertising networks and providers of external services like web traffic analysis services. These third-party cookies are likely to be analytical cookies or performance cookies or targeting cookies:

Google

To deactivate the use of third-party advertising cookies, you may visit the consumer page to manage the use of these types of cookies

Blocking cookies

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our website.

Except for essential cookies, all cookies will expire after 6months
